

**GENERAL ORTHOPAEDICS**

AC Joint management in athletes

ACL reconstruction

Anterior cruciate ligament

Approach to multiple-ligament knee injuries

Bone grafting / tissue engineering

Bone Substitutes in Clinical Work

Cartilage-forming Bone Tumours

CC on the use of PRP in sports injury

Cellular therapy – PRP in bone healing

Clinical outcome in THA and in TKA wear

Current concepts in intraoperative and postoperative pain management after major orthopaedic surgery

Current concepts on treatment of early degenerative joint arthritis

Current data of wear performance in total hip arthroplasty

Diagnosis and treatment of muscle injuries

Diagnosis and treatment of the infected THR

Different aspects in diagnosing and judging orthopaedic cases

EFORT – Brazilian Society Sport injuries in high level athletes

Epidemiology and variability of orthopaedic procedures across EU

EU political symposium - Musculoskeletal conditions and active ageing in the EU

Evaluation of wear in different concepts of THA

Fast track treatment and rehabilitation in orthopaedic surgery

How to make good results in orthopaedic surgery?

Imaging modalities. Clinical application in orthopaedics

Invited Guest Lectures

Knee navigation and surgical technique

Local infiltration anaesthesia for surgery in larger joints

Long term results with endoprosthesis and allograft reconstruction in bone tumours

Management of early and chronic Implant-associated infections

Management of osteomyelitis and septic arthritis

Menisus/patello femoral

Miscellaneous

New developments in treatment of cartilage lesions in the knee

Nordic Best Paper 2010

Nosocomial infections: Diagnosis and management in prosthetic joint infections

Nurse: Update on scientific nursing

Oral Free Paper presentations

Orthopaedic and traumatologic surgery in conflict and post – conflict settings

Orthopaedics in developing countries

Osteoporosis in spine and hip surgery

Outcomes / revision ACL / PCL

Pain and fast track joint replacement

Particles / implant fixation

Pelvic and spinal reconstruction in orthopaedic oncology

Peri-prosthetic infection

Physical function and outcome in lower limb surgery

Prognostic factors in bone sarcoma

Reconstructive techniques in bone tumours

Special issues on infections of implants

Sports Injuries in Lower Extremity

Sports injuries in the knee (ligament, chondral lesions, osteotomies)

Surgical prophylaxis

The infected mega prosthesis

The use of registries in clinical practice to improve treatments

Transfusion, DVT and haemostatics

Updates on treating medial knee injuries: It's just not the MCL

Value based health care: Health economic considerations in orthopaedic surgery

Venous thromboembolism in Orthopaedic Surgery

Watersport injuries and shoulder problems

**LOWER LIMB**

Acetabular orientation and its effects on dislocation

Advanced techniques on Tendons Pathologies

Ankle pathologies

Ankle replacement versus ankle arthrodesis

Athletic injuries of the foot and ankle

Basics on Hallux Valgus

Bearing surfaces

Bone loss around the acetabular component

Choice of prosthetic concept in the young versus elderly THA patients

Clinical outcome after THA

Complicated primaries and revisions in THA

Diseases in the forefoot

Femoralacetabular impingement and it's consequences to cartilage damage

Foot and ankle (prosthesis)

Foot and ankle fractures

Forefoot deformities

Hallux valgus

Hip fractures 1

Hip pain in the young adult

Hip revision surgery and complications in resurfacing hip arthroplasty

How to decide on the optimal treatment for articular cartilage defects?

Joint arthroplasty in foot and ankle (excluding TAR)

Knee cartilage and necrosis

Long term outcomes after THA

Miscellaneous

Non-operative treatment of hip osteoarthritis

Osteotomies around the knee

Problem wounds - a multidisciplinary challenge

Recent research in TKA

Resurfacing

Revision surgery

Rheumatoid foot

Surgical treatment of calcaneal fractures

Technique / device

Tendons and ligaments

THA short presentations

The future for resurfacing THA: Pro's and con's

The Uni-Knee-Indications and Recent Techniques

The unstable total hip replacement

The young adult with initial hip arthritis

TKA for the stiff Knee

Total knee arthroplasty

Total knee arthroplasty and outcome

Total knee arthroplasty outcome and survival

Total knee replacement and knee navigation

Unicompartmental knee arthroplasty versus proximal tibial osteotomy

Unicompartmental knee arthroplasty, total knee arthroplasty and tibial osteotomy

Wear related problems following hip resurfacing

## UPPER LIMB

Complex fracture of distal part of radius
Complex proximal humeral fractures. What we know, where we are and where we go
Diagnosis and treatment of rotator cuff injuries
Difficult cases in hand surgery
From the bench to the operation room
Hand surgery in Dupuytren's disease carpal tunnel syndrome and scapholunate instability
Instability and cuff tear
Scaphoid fractures
Shoulder arthroplasties-Reverse; Registries; Demographics
Shoulder cases (fractures, prosthesis)
The Reverse Shoulder Prosthesis
The rotator cuff deficient shoulder
Treatment of dislocated distal radius fractures
What is new?
What not to miss in wrist trauma: Carpal ligaments and bones - small and insignificant for real orthopaedic surgeons?

## SPINE

Adult deformity
AOSpine Thoracolumbar spine trauma
Deformity and fractures
Fusion/ non-fusion techniques
Health economy and outcome
Minimally Invasive spinal surgery in spinal disorders. State of the art
Miscellaneous
Spine injury - polytrauma management
Surgical management of tuberculosis of the spine
Surgical options in degenerated lumbar spine
The Severe Immature Spinal deformity - Fusion versus Growth Instrumentation
Vertebro and kyphoplasty
Visualization of spine deformities - 3D becoming a reality - the EOS system

\*Content is subject to change and/or speaker permissions.

## TRAUMA/POLY-TRAUMA

ARTOF symposium: Upper extremity trauma update
Diseases in the forefoot
Distal radius fractures
Efficient management of pelvic trauma
EFORT-EULAR guideline on management of the patient with fragility fracture
Fractures in the hand
Fractures with soft tissue injury
Hip fractures 2
Hip fractures and prosthesis
Hip fractures and shaft fractures
Hip fractures: Morbidity
Leg and ankle
Lesions around the elbow
Limb reconstruction in severe injuries
Management of patella dislocation
Management of pelvic fractures
Pelvic ring injuries and controversies
Proximal femur fractures in the elderly - in collaboration with the "Fragility-Fracture Network"
Proximal humeral fractures
Setting Sails for a New Life - Veteran Symposium
Shoulder and clavicle
Total hip and knee replacement: Treatment of periprosthetic fractures
Trauma (fractures, non-union, deformities mm)
Treatment options in pelvic fractures

## PAEDIATRICS

Current concepts for the treatment of clubfeet
Developmental dysplasia of the hip: Diagnosis and treatment
Forearm, wrist and hand – Fracture treatment in children
Hip diseases during growth
Management of lesions adjacent to joint and growth plates
Paediatric foot, patient's and parent's satisfaction
Paediatric hip and spine
Paediatric Trauma and Deformity Correction
The battered child

### Introducing:

## EFORT e-Science 2011

### Order at the Congress and receive substantial savings!

**NEW!** Presentations from the 12th EFORT Congress will be captured in a digital education library: EFORT 2011 e-Science Congress Sessions Online

With this valuable digital library you can:

- Review up to 270 hours of content from the 12th EFORT Congress
- Search and bookmark your favourite sessions
- Watch sessions you were unable to attend in Copenhagen
- Access sessions conveniently at anytime online and on DVD-ROM

**Don't miss your opportunity to purchase EFORT e-Science 2011 at the discounted price - Only available to congress registrants.**

Order today at the following locations:

- e-Science stand in the registration area
- e-Science stand in the exhibition area

	BUY ALL (incl. DVD-ROM)* (Regular price € 599.00)	Individual tracks	CRC
Participants	€ 299.00	€ 199.00	€ 99.00
Nurses	€ 199.00	€ 99.00	
Residents & Students	€ 199.00	€ 99.00	

\*The DVD-ROM is expected to be shipped within 6 weeks post-meeting; excludes € 20 shipping costs.
