

12th EFORT Congress

1 – 4 June 2011
Copenhagen, Denmark

Orthopaedics, Orthopaedic surgery and Traumatology: 12th EFORT Congress, June 1-4, 2011, Copenhagen / Denmark

Dear Sir/Madam,

More than 7,500 participants from all over the world are expected at this year's European Congress for Orthopaedics, Orthopaedic Surgery and Traumatology from 1 to 4 June in Copenhagen/Denmark (Bella Centre Copenhagen). The Congress is being organised by the European Federation of National Associations of Orthopaedics and Traumatology (EFORT) and will be held in cooperation with the Danish Orthopaedic Association (DOS).

International experts are presenting current trends and significant developments from all areas of orthopaedics – from basic research to prevention, treatment or rehabilitation.

Some of the topics discussed at the EFORT Congress:

- The use of registries in clinical practice to improve treatments
- Cell therapy in bone healing and sports therapy
- Fast-track treatment and rehabilitation in orthopaedic surgery
- Epidemiology and variability of orthopaedic procedures across EU
- Health economic considerations in orthopaedic surgery
- Consequences of football lower limb fractures
- Nutritional deficiency in osteoporosis patients
- Waiting times for elective paediatric orthopaedic surgery
- Obesity and its consequences for hip and knee arthroplasty
- Specialised hip unit surgeons

As in previous years, we will prepare press releases on some of these topics which we will make available during the Congress.

Information on the Congress can be found at <http://www.efort.org/copenhagen2011/>

Free registration for representatives of the media

You can of course register free of charge - provided that you have a valid press card or letter of engagement by the editorial office. For prior registration, please send us your data as well as a copy of your press card or letter of engagement by fax or e-mail.

We look forward to good cooperation. Please notify us if you require further information.
