This spring, EFORT went live with its re-launched website. With a completely new design and a clearly represented structure the user can easily navigate and find the needed information.

One of the new highlights is the Scientific e-Library:

The Scientific e-Library offers user-friendly access to material presented during our Advanced Training Programme. This site will steadily be updated and enhanced with the newest scientific content within the wide orthopaedic field.

Visit the Scientific e-Library now and search through this new interactive tool!
