EPOS-EFORT
Instructional Course
13-15 March 2013

European Paediatric Orthopaedic Society

Workshops / Case discussion

EPOS-EFORT Instructional Course

Vienna, Austria: 13-15 March 2013

Paediatrics: Trauma Course

- Fractures in the children, diagnostics, fracture treatment
- Upper and lower extremities
- Fractures and dislocation of the foot
- Workshops and case discussion

Welcome

Bjarne
Møller-Madsen

Franz
Grill

Manuel
Cassiano Neves

Dear Colleagues,

It is a pleasure to welcome you to the second EPOS-EFORT IC which constitute an integrated part of "EPOS BAT Educational Programme". The course aims at General Orthopaedic Surgeons, particularly young ones, who want to improve their knowledge in Children's Orthopaedics. The syllabus should contribute to knowledge-sharing and a further understanding of Children's Orthopaedics.

EPOS Educational Committee has set up "EPOS BAT Educational Programme". The programme meets the demands required by the European Board of Orthopaedics and Traumatology (EBOT). The acronym **BAT** arises from **B**asic-, **A**dvanced- and **T**raumatology Courses. These courses together constitute "EPOS BAT Educational Programme" and aim to facilitate a problem-solving approach in the diagnosis and management of orthopaedic conditions in children informed by relevant research evidence.

A module of two Basic Courses in combination with one Traumatology Course covers the core curriculum in Children's Orthopaedics. Advanced Courses are primarily designed for Children's Orthopaedic Surgeons who manage children's orthopaedic conditions in a highly specialized setting. Course teaching Faculties are composed of highly internationally recognized specialists in Children's Orthopaedics from all over Europe and USA. This Traumatology Course includes fractures in children, diagnostics, fracture treatment, upper and lower extremity fractures and fractures and dislocation of the foot combined with workshops, panel discussions and case presentations by participants.

The Industry is an important partner in this programme. Innovation in hardware and treatment procedures for children often has its basis in clinical work. That is why we need close collaboration with the industry in this field.

We invite all orthopaedic surgeons to come to Vienna in October 2011 and join us at the Orthopädisches Spital Speising at the heart of Europe. We will do our utmost to meet and exceed your expectations.

Yours,

Bjarne Møller-Madsen

Core Curriculum in Childrens Orthopaedics

EPOS Educational Committee has set up "EPOS BAT Educational Programme". The programme meets the demands required by the European Board of Orthopaedics and Traumatology (EBOT). The acronym **BAT** arises from **B**asic-, **A**dvanced- and **T**raumatology Courses. These courses together constitute "BAT Educational Programme" and aim to facilitate a problem-solving approach in the diagnosis and management of orthopaedic conditions in children informed by relevant research evidence.

BAT – Basic, Advanced and Traumatology

Educational Programme in Childrens Orthopaedics

A module of two Basic Courses in combination with one Traumatology Course covers the core curriculum in Children's Orthopaedics. Advanced Courses are primarily designed for Children's Orthopaedic Surgeons who manage children's orthopaedic conditions in a highly specialised setting. Course teaching Faculties are composed of highly internationally recognised specialists in Childrens Orthopaedic from all over Europe.

Education in the focus!

The EFORT FONDATION supports 10 scholarships for this Core Curriculum in Paediatrics. To apply send us an e-mail indicating what your motivation is to participate in the BAT Programme and submit your CV. Applications are received at: ic@efort.org

Programme

Wednesday 13 March

Schedule	Topic	Faculty
7:30	Registration	
8:00	Opening and welcome	B. Møller-Madsen M. Cassiano Neves
8:15	About "EPOS BAT Educational Programme"	B. Møller-Madsen

Fractures in children

Moderator: Bjarne Møller-Madsen

8:30	Epidemiology	M. Cassiano Neves
8:40	Fracture biology – incl. the normal/ injured physis	A.M. Weinberg
9:00	Fracture healing and remodeling	M. Paterson
9:30	Bone grafting	J. Czubak
9:45	Discussion	
10:00	Coffee break	

Diagnostics

Moderator: Franz Grill

10:30	Conventional radiography	P. Lascombes
11:00	CT scan	M. Cassiano Neves
11:10	MRI scan	T. Wirth
11:20	Ultrasonography	Y. Hemo
11:30	Discussion	
12:00	Lunch/Symposium	

Programme

Wednesday 13 March

Fracture treatment

Moderator: Manuel Cassiano Neves

13:00	Workshops – Rotation system	
14:30	Classifications and principles of fracture treatment	P. Lascombes
15:00	Birth fractures	Y. Hemo
15:15	Pathological fractures incl. Child abuse	F. Grill
15:45	Discussion	
16:00	Workshops – Rotation system	
17:30	Panel discussion: Fracture cases from audience	M. Paterson
18:00	End of the day	

Programme

Thursday 14 March

Schedule	Topic	Faculty
----------	-------	---------

Shoulder, humerus and elbow

Moderator: Yoram Hemo

9:00	Clavicle fractures and luxations	J. Czubak
9:15	Glenohumeral dislocation	T. Wirth
9:30	Fractures of diaphysis - proximal part	P. Lascombes
9:40	Coffee break	
10:10	Fractures of diaphysis	A. M. Weinberg
10:25	Supracondylar fractures of the distal humerus	M. Paterson
10:55	Condyl and apophyseal fractures	A. M. Weinberg
11:20	Discussion	
12:10	Elbow dislocation	M. Cassiano-Neves
12:25	Proximal ulna and radius fractures	J. Czubak
12:40	Discussion	
13:00	Lunch/Symposium	

Forearm, wrist and hand

Moderator: Mark Paterson

14:00	Fractures of the distal radius and ulna	M. Cassiano-Neves
14:30	Fractures of the shaft of radius and ulna	T. Wirth
14:50	Monteggia fracture and complications	P. Lascombes
15:10	Metacarpal fractures, scaphoideum	J. Czubak
15:25	Fractures of the phalanges	J. Czubak
15:45	Coffee break	
16:00	Workshops – Rotation system	
17:30	Panel disc: Upper extremity cases from the audience	
18:00	End of the day	
19:00	Course Dinner	

Programme

Friday 15 March

Schedule	Topic	Faculty
----------	-------	---------

Pelvis, thigh and knee

Moderator: Jaroslav Czubak

8:00	Pelvis fractures	M. Cassiano-Neves
8:20	Proximal femur fractures	T. Slongo
8:45	Femoral shaft fractures	T. Wirth
8:55	Distal femoral physeal fractures	T. Wirth
9:15	Discussion	

9:30	Coffee break	
------	--------------	--

10:00	Intraarticular lesions of the knee	T. Wirth
10:45	Discussion	

11:00	Workshops – Rotation system	
-------	------------------------------------	--

12:30	Lunch/Symposium	
-------	-----------------	--

Leg, ankle and foot

Moderator: Weinberg Annelie M.

13:30	Fractures of the proximal tibia and shaft	M. Paterson
13:45	Fractures of distal tibia and fibula	P. Lascombes
14:15	Complications of injury to lower leg	Y. Hemo
14:30	Discussion	

Fractures and dislocation of the foot

Moderator: Franz Grill

15:00	Fracture of the hindfoot	M. Cassiano-Neves
15:15	Fractures and dislocations of the forefoot	A. M. Weinberg
15:30	Discussion	

15:45	Coffee break	
-------	--------------	--

16:00	Test - End of the course	
-------	--------------------------	--
