## EFORT Forum

during the National Congress of the Lithuanian Orthopaedic and Trauma Society (LTOD)

Complex tibia plateau fractures: Is there an ideal method of treatment?

25 April 2014

Kaunas, Lithuania

# EFORT Fora

## Welcome

The project called EFORT Fora, launched in 2002 at the DGOOC Congress in Berlin, aims at organising specific EFORT symposia during the annual congresses of our member National Societies.

The initial idea was to choose one topic for several events, e.g. Thromboprophylaxis, and let European experts from various countries discuss it to clarify different European criteria and arrive at new standards. The concept was very well accepted, but the problem was to find European speakers ready to deal with the same topic during numerous events. On the other hand, the national expectations from such symposia are distinct from country to country.

Consequently, EFORT changed the format of the project and decided to organise these European Fora on specific topics non-related between them but rather embedded in the topics highlighted in each national congress. Today, under the supervision of our Fora Chair, Prof. Thierry Bégue from Paris – France, EFORT organises around 10 European Fora each year.

We plan to provide updates on a variety of hot topics within orthopaedics and traumatology. National Societies are free to choose a topic and propose a two-to-four-hour session during their yearly congress. Half of the speakers come from the organizing National Society and the other half should be appointed by EFORT from other European countries.

In recent years the EFORT Fora have enjoyed a very high scientific level and provided an excellent exchange between National Societies and EFORT. Accordingly, the interest in such Fora has grown markedly.

# Programme and faculty

## Faculty

Sarunas Tarasevicius  
Lithuania

Jaunius Kurtinaitis  
Lithuania

Algimantas Cebatorius  
Lithuania

Thierry Bégué  
France

Christos Garnavos  
Greece

## EFORT Forum Friday, 25 April 2014 15.00 – 17.00

15.00 Opening of the EFORT Forum  
S. Tarasevicius

---

15.10 Surgical approaches in complex  
tibial plateau fractures  
J. Kurtinaitis

---

15.30 Basic principles of complex tibia  
fractures management  
A. Cebatorius

---

15.50 Percutaneous fixation with  
mono-axial devices  
T. Bégué

---

16.10 Hybrid fixation in complex  
proximal tibia fractures  
T. Bégué

---

16.30 Tibia plateau fractures treated  
by Nails  
C. Garnavos

---

16.50 Summary of the EFORT Forum  
S. Tarasevicius

---
