EFORT Fora

Welcome

The project called EFORT Fora, launched in 2002 at the DGOOC Congress in Berlin, aims at organising specific EFORT symposia during the annual congresses of our member National Societies.

The initial idea was to choose one topic for several events, e.g. Thromboprophylaxis, and let European experts from various countries discuss it to clarify different European criteria and arrive at new standards. The concept was very well accepted, but the problem was to find European speakers ready to deal with the same topic during numerous events. On the other hand, the national expectations from such symposia are distinct from country to country.

Consequently, EFORT changed the format of the project and decided to organise these European Fora on specific topics non-related between them but rather embedded in the topics highlighted in each national congress. Today, under the supervision of our Fora Chair, Prof. Thierry Bégué from Paris – France, EFORT organises around 10 European Fora each year.

We plan to provide updates on a variety of hot topics within orthopaedics and traumatology. National Societies are free to choose a topic and propose a two-to-four-hour session during their yearly congress. Half of the speakers come from the organizing National Society and the other half should be appointed by EFORT from other European countries.

In recent years the EFORT Fora have enjoyed a very high scientific level and provided an excellent exchange between National Societies and EFORT. Accordingly, the interest in such Fora has grown markedly..

Programme and faculty

EFORT Forum

Thursday, 13 November 2014

08.00 – 10.00

08.00 Opening of the EFORT Forum

R. Kohler

Non Invasive surgery

08.05 Minimally invasive treatment for
pediatric spinal deformity

R. Dayer

08.15 Mini-invasive surgery dedicated to
trauma of the lower limb:

What I can do and what I cannot?

C. Krettek

Fast track surgery

08.35 Principles of fast track surgery:
Example in hip prosthetic replacement

A. Sautet

08.45 Fast-track management for hip
fractures: Our experience and results

C. Rogmark

08.55 Fast track diagnosis and work-up
for surgery in pediatric orthopedics

R. Sakkers

Knee registries

09.15 Registries in total knee arthroplasty

P. Kjaersgaard-Andersen

09.25 Registries in anterior cruciate
ligament reconstruction

F. X. Gunepin

09.35 International quality register
collaboration in Nordic countries

Keijo Mäkela

09.55 Conclusions & summary
