

# EFORT Instructional Course

28-29 November 2014

An educational programme in collaboration with EFAS

Live Surgeries / Case Discussions

## EFORT Instructional Course

Lausanne, Switzerland: 28-29 November 2014

### Hallux Valgus, Ankle Arthrosis, Managing Complications

#### Hallux Valgus:

- MTP1 arthrodesis
- Lapidus
- Scarf
- Chevron
- Percutaneous surgery
- Selected Complications

#### Ankle Arthrosis:

- Joint preserving surgery
- New developments in ankle fusion
- Complications of total ankle replacement

# Welcome

Xavier Crevoisier

Mathieu Assal

Stephen R. Cannon

Dear Colleagues,

Over the last several years tremendous progress has been made in the area of foot and ankle surgery. Surgeons can now choose from a broad selection of treatments for hallux valgus and ankle arthrosis, opening up an even wider variety of surgical options depending on the specific foot pathology.

We are excited to offer you a programme focused on the management of hallux valgus deformity and current concepts in the treatment of arthrosis of the ankle. The course will also go further in depth and address the management of selected complications associated with surgical treatment of these pathologies, thus making this truly an advanced course.

The EFORT IC Lausanne 2014 should facilitate the sharing of expertise and provide a deeper understanding of the current body of knowledge on these aspects of foot surgery. A real benefit for participants that we feel will enhance the overall learning experience is the scheduled five live operations demonstrating the principles of hallux valgus surgery. The course is designed to be interactive with audience participation and case discussions.

Lausanne is an attractive city in the heart of Europe facing the Lake of Geneva and the Swiss Alps, located 60km from the Geneva Airport. In addition to many cultural sites, Lausanne hosts the headquarters of the International Olympic Committee (IOC) and the famous Olympic Museum. It will provide the perfect environment for this stimulating course.

EFORT and the local organizing committee cordially welcome you to this exciting Instructional Course.

Friday, 28 November

## HALLUX VALGUS

Schedule	Topic	Faculty
7:30	Registration	
8:00	Opening and welcome	X. Crevoisier
8:10	About EFORT	

## MTP1 Arthrodesis for HV

Moderator: Mathieu Assal

8:20	My indications	X. Crevoisier
8:25	Live Surgery - MTP1 Arthrodesis	X. Crevoisier
9:00	Highlights from the literature	M. Assal
Expert's opinion in Management of selected complications:		
9:05	Non-Union	Y. Tourné
9:10	Malposition	L. Drittenbass
9:15	Discussion	
9:20	Case Discussions	M. Assal
10:20	Coffee break	

## Lapidus

Moderator: Xavier Crevoisier

10:50	My indications	M. Assal
10:55	Live Surgery - The Modified Lapidus Arthrodesis	M. Assal
11:30	Highlights from the literature	X. Crevoisier
Expert's opinion in Management of selected complications:		
11:35	Non-union	M. Delmi
11:40	Hypercorrection	P. Rippstein
11:45	Undercorrection	F. Pagano
11:50	Recurrence HV<IM angle	Y. Tourné
11:55	Discussion	
12:00	Lunch break - Optional: case presentation & discussion	

## Scarf

Moderator: Mathieu Assal

13:00	My indications	P. Rippstein
13:05	Live Surgery - The Scarf Osteotomy	P. Rippstein
13:40	Highlights from the literature	X. Crevoisier

# Programme

Friday, 28 November

Schedule	Topic	Faculty
Expert's opinion in Management of selected complications:		
13:45	Troughing effect	J. Mainzer
13:50	Recurrence	M. Guelfi
13:55	Non-union	J. De Halleux
14:00	Discussion	

## Chevron

Moderator: Marino Delmi

14:10	My indications	A. Viladot
14:15	Live Surgery - The Chevron Osteotomy	A. Viladot
14:50	Highlights from the literature	M. Assal
Expert's opinion in Management of selected complications:		
14:55	Varus	A. Rochwerger
15:00	Non-union	R. Baalbaki
15:05	Undercorrection	M. Guelfi
15:10	Arthrosis / necrosis	P. Rippstein
15:15	Discussion	
15:20	Case Discussions	M. Delmi
16:20	Coffee break	

## Percutaneous techniques

Moderator: Jacques De Halleux

16:50	My indications	E. Rabat
16:55	Live Surgery - Percutaneous chevron for HV	E. Rabat
17:30	Highlights from the literature	M. Assal
Expert's opinion in Management of selected complications:		
17:35	Elevation	F. Neumayer
17:40	Non-union	A. Ray
17:45	Recurrence	A. Rochwerger
17:50	Discussion	
18:00	End of the day	
19:30	Course Dinner	

# Programme

Saturday, 29 November

## ANKLE ARTHROSIS

Schedule	Topic	Faculty
----------	-------	---------

### Joint preserving surgery

Moderator: Thibaut Leemrijse

8:15	Periarticular osteotomies: Algorithm	M. Knupp
8:25	Managing complications of periarticular osteotomies	B. Hintermann

### New developments in ankle arthrodesis

Moderator: Beat Hintermann

8:40	Primary arthrodesis: Obsolete surgery?	K. Klaue
8:50	Arthroscopic arthrodesis: Advantages and limits	J. Vega
9:00	Managing complications of ankle arthrodesis	T. Leemrijse
9:10	Discussion	
9:20	Case Discussions	T. Leemrijse
10:20	Coffee break	

### Complications of total ankle replacement (TAR)

Moderator: Markus Knupp

10:50	Fractures	B. Hintermann
11:00	Cysts: origin – solutions	M. Bonnin
11:15	Revision – revision implants	B. Hintermann
11:30	Take-down to fusion	N. Espinosa
11:40	Fixed-bearing: Is it THE solution?	M. Bonnin
11:50	Discussion	
12:15	Closing Remarks	
12:30	End of the course
