Welcome

Matej Cimerman

Ulrich Stöckle

Stephen R. Cannon

Dear Colleagues,

Lower extremity fractures are among the most common injuries, covering a broad spectrum from basic to expert level injuries. They are commonly treated by general orthopaedic trauma surgeons and subspecialists as well. We chose the most challenging topics from this broad field of fractures: periprosthetic, articular and complex fractures together with infection.

We invited eminent experts from all over Europe, who will prepare state of the art lectures which will cover each topic: fracture based approaches for articular fractures, modern antibiotic treatment and bone defect management for complex cases.

The forum in Roman times was an open place or market where free deliberation about any topic was possible. A similar setup was prepared in Ljubljana: interactive discussions in small groups with international faculty and panel discussions for the most demanding topics. Participants are welcome to bring their own clinical cases on complications.

The industry together with experts developed a lot of new implants especially suitable for these difficult cases. We will also organize hands-on workshops where every participant will have the opportunity to become familiar with these new implants and also to discuss specific implant-related issues or other clinical problems with the faculty.

We are looking forward to seeing you in Ljubljana which in late spring is a particular charming town. We will do our best to show you that acquisition of new knowledge in friendly atmosphere in a "forum" like environment can be very effective.

We look forward to welcoming you!

Yours,

Matej Cimerman

2014-2015

Programme

Thursday, 23 April

Schedule	Topic	Faculty
7:30	Registration	
8:00	Opening Remarks	M. Cimerman
8:10	About EFORT	U. Stöckle

Periprosthetic Fractures

Moderators: Steven Velkes & Michael Brix

8:20	Update on periprosthetic fractures – proximal femur	S. Velkes
8:35	Update on periprosthetic fractures – knee	M. Brix
8:50	Periprosthetic fractures in risk patients	V. Antoli
9:05	Discussion	
9:20	Panel discussion with Faculty: Case presentations	
10:20	Coffee break	

Proximal Femur

Moderators: Norbert Haas & Anže Kristan

10:45	Pipkin fractures: Surgical luxation of the hip	M. Tomaževic
11:00	Femoral neck fractures: State of the art	N. Haas
11:15	Trochanteric fractures: DHS or nail	A. Kristan
11:30	Discussion	
11:45	Workshops - Session 1 (Rotation system)	
12:45	Lunch break	
13:45	Case discussions	

Programme

Thursday, 23 April

Schedule	Topic	Faculty
----------	-------	---------

Distal Femur

Moderators: Jean Christophe Bel & Ulrich Stöckle

14:15	Unicondylar and Hoffa fractures	J. C. Bel
14:30	Distal femur: Update on articular fractures	U. Stöckle
14:45	Distal femur: Special solutions	F. Gebhard
15:00	Discussion	
15:15	Workshops - Session 2 (Rotation system)	
16:15	Coffee break	
16:45	Case discussions	

Proximal Tibia

Moderators: Christian Candrian & Matej Cimerman

17:15	Intraarticular: Fracture and approach	M. Cimerman
17:30	Proximal tibia: Open fractures	C. Candrian
17:45	Discussion	
18:00	Case discussions - Proximal and distal tibia	
18:30	End of the day	
19:30	Course Dinner	

Programme

Friday, 24 April

Schedule	Topic	Faculty
----------	-------	---------

Distal Tibia

Moderators: Florian Gebhard & Boštjan Sluga

8:00	Pilon fractures: Fracture and approach	D. Brilej
8:15	Distal tibia: Open fractures and special solutions	J. M. Muñoz Vives
8:30	Discussion	

8:45 Workshops - Session 3 (Rotation system)

Infection and Complications

Moderators: Andrej Trampuž & Drago Brilej,

9:45	Update on posttraumatic osteomyelitis	B. Sluga
10:00	Infection after endoprosthesis: To remove or not to remove?	R. Trebse
10:15	Antibiotic treatment: State of the art	A. Trampuž
10:30	Bone defects: Callus distraction	I. Gril
10:45	Bone defects: Other solutions	N. Haas
11:00	Discussion	

11:15 Coffee break

11:45 Panel discussion with Faculty: Case presentations

12:45 Take home message: Benefits, aims and new knowledge

13:15 Closing Remarks M. Cimerman

13:30 End of the Course

Faculty

Faculty:

Matej Cimerman, Slovenia
Ulrich Stöckle, Germany
