Welcome Address

Prof. Dr. Pierre Hoffmeyer
EFORT President 2012/2013

Dear Colleagues, Friends and Participants,

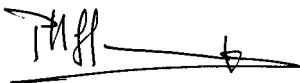

A warm welcome to the thirteenth EFORT Congress, organised in 2012 in Berlin in close cooperation with the German Association of Orthopaedics and Orthopaedic Surgery (DGOOC), the Professional Association of Orthopaedic Surgeons and Traumatologists in Germany (BVOU) and the German Trauma Society (DGU).

The latest in orthopaedic and trauma research and technology will be presented, along with the newest concepts and breakthroughs in the realm of musculoskeletal surgery-related specialities. Only the most current and best practices, meeting the highest standards of our profession, will be discussed during this high-quality EFORT Congress.

The EFORT Congress offers you a broad spectrum of carefully-selected opportunities to further your knowledge of our field. These include 39 symposia organised by well-known European experts, 20 Instructional Course lectures, the popular full-day Comprehensive Review Course, many e-posters and numerous workshops, industry symposia and technical exhibits. The many symposia organised by European Specialty Societies and other affiliated organisations are a major additional input into our programme. The highlights of the Congress will be plenary addresses from two internationally renowned honorary lecturers. The Michael Freeman Honorary Lecture will be given by Bernard F. Morrey, the outstanding orthopaedic surgeon from the Mayo Clinic (USA), and the Erwin Morscher Honorary Lecture will be delivered by Reinhold Ganz, the master hip surgeon from Bern.

On behalf of the Executive Committee of EFORT and also personally, I would like to express my heartfelt gratitude to the chairmen of the Local Organising Committee, Professors Dieter Wirtz and Karsten Dreinhöfer, as well as to the entire staffs of the congress organiser MCI and of the EFORT Head Office in Zurich for their relentless efforts and enthusiastic hard work.

Welcome. Come with us and feel the buzz of this lively city of Berlin. Enjoy the exclusive, hand-picked social programme with your colleagues and your companions.

Prof. Dr. Pierre Hoffmeyer

The EFORT Invited Nation Programme is presented this year in Berlin. Its aim is to raise awareness and recognition towards the contributions made to the management of musculo-skeletal diseases worldwide and to strengthen ties with colleagues around the globe. In this sense we are delighted to announce that EFORT honours the Chinese Orthopaedic Association (COA) as "Invited Nation" at the 13th EFORT Congress in Berlin.

Welcome Address

Chairman LOC Berlin 2012

Prof. Dr. Karsten Dreinhöfer
Chairman LOC Berlin 2012

Dear Colleagues,

Welcome to Berlin and the 13th Congress of the European Federation of National Associations of Orthopaedics and Traumatology (EFORT), from May 23-25 at the ICC International Congress Centrum in Berlin. We hope that this meeting will be a stimulating experience in orthopaedic training, research and technology, with previews of new concepts and discoveries in the orthopaedic arena.

The EFORT Scientific Committee and the Local Scientific Committee have together designed an outstanding programme. A wealth of Symposia, Instructional Lectures, and four Experts-Meet-Experts sessions will cover exciting and relevant topics. All of these sessions are led by European experts and a renowned faculty. A large number of Free Paper sessions on the latest scientific and clinical studies and – last but not least – the e-posters and wall posters, guarantee that you will make the most of your EFORT Congress in Berlin.

Trauma has been selected as the main focus of the 13th EFORT Congress, with several sessions dealing with a full range of aspects of diagnosing and treating trauma of the musculo-skeletal system. In addition, there will be a car crash scenario set up just outside the congress centre on Friday, 25 May, during the 10.45 coffee break. Berlin marks the debut for a new type of session. There will be three Crossfire Discussions on controversial topics on which opinions in the professional world differ. Please go along and add your voice to the debate.

In our plenary sessions, two distinguished international speakers have accepted our invitation to give this year's Honorary Lectures. Professor Bernard Morrey from Rochester, USA will talk on "The Elbow: Evolution of viable solutions", and Professor Reinhold Ganz from Bern, Switzerland, will give the lecture "Anatomical reconstruction of the hip with slipped capital femoral epiphysiolysis justified by pathophysiological findings".

The European Specialty Societies work closely with EFORT, and are directly involved in the overall scientific and training programme. A total of 19 Specialty Society sessions will run during the Congress in Berlin, while distinguished members of these societies will also act as speakers and moderators in other sessions.

As in Copenhagen last year, a full-day nurse's programme has been created for Berlin. The full-day Comprehensive Review Course is here to stay, once again providing our younger colleagues with a good overview of our field, and offering a great recap to those preparing for the EBOT examination. And for the fourth congress in a row, a Tribology Day will be held during which speakers of international repute will share with us their knowledge on wear and other aspects relating to bearings in total joint replacements.

The industry and its great support for our Congress will also be very visible in Berlin, with a total of 25 training sessions dealing with all aspects of our field.

There can be no congress without a programme of social highlights. In Berlin, we would particularly like to mention the Opening Ceremony on Wednesday afternoon at the Congress venue, and the Berlin Night at Kaufhaus Des Westens (KaDeWe) on Thursday evening.

Berlin is a very inviting city with plenty of historical buildings within walking and cycling distance of the city centre. Don't forget to visit the famous Brandenburg Gate, the Reichstag building with its fascinating cupola, the remains of the Berlin Wall and the tremendous Museum Island, a UNESCO World Heritage Site, for special memories of the lovely German capital.

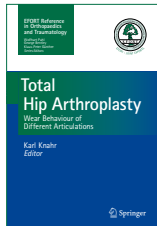

Welcome to Berlin!

NON IDIOPATHIC SPINE DEFORMITIES IN YOUNG CHILDREN

Non idiopathic early onset scoliosis represents a true challenge to the physician due to the significance of the ongoing growth of spine, the risk of curve progression, and the risk of pulmonary insufficiency. A comprehensive review of the growth mechanisms of spine in infancy forms the basis of the book.

SPECIALTY SESSION	LIFE THREATENING PELVIC INJURIES? AN UPDATE Moderators: Pohlemann, Tim (Germany), Giannoudis, Peter (United Kingdom)	Room: Stockholm
	The life threatening pelvic fracture – pathophysiology and history of treatment strategies Speaker: Rommens, Pol (Germany)	
	When and why do patients really die? Speaker: Holstein, Jörg (Germany)	
	The role of coagulopathy control Speaker: Giannoudis, Peter (United Kingdom)	
	The role of emergency stabilization Speaker: Stöckle, Ulrich (Germany)	
	The role of hemostasis by "packing" Speaker: Keel, Marius (Switzerland)	
	The role of angioembolisation Speaker: Røise, Olav (Norway)	
	Do we need other treatment strategies? Speaker: Pohlemann, Tim (Germany)	
	Case-based discussion Speaker: Culemann, Ulf (Germany)	

Hip

SYMPOSIUM	HIP ARTHROSCOPY Moderator: Villar, Richard (United Kingdom)	Room: Hall 3
	Peri-articular hip endoscopic surgery Speaker: Field, Richard (United Kingdom)	
	Hip arthroscopy for FAI – does it work? Speaker: Santori, Nicola (Italy)	
	Hip arthroscopy – looking to the future Speaker: Dienst, Michael (Germany)	
	Hip arthroscopy and the athlete Speaker: Villar, Richard (United Kingdom)	

Polytrauma/pelvis

SYMPOSIUM	BIOLOGIC APPROACHES TO ENHANCE FRACTURE HEALING Moderator: Marcacci, Maurilio (Italy)	Room: Hall 4/5
	Bone regeneration in clinical practice Speaker: Coombs, Richard (United Kingdom)	
	Stem cells for bone regeneration Speaker: Marcacci, Maurilio (Italy)	
	Use of growth factors for bone regeneration Speaker: Schmidmaier, Gerhard (Germany)	
	Novel biomaterials for bone regeneration Speaker: Santin, Matteo (United Kingdom)	
	Nanotechnology for bone regeneration – Discussion Speaker: Marcacci, Maurilio (Italy)

	Controversies in surgical treatment Speaker: Dungl, Pavel (Czech Republic)	
	Controversies in treatment of late cases Speaker: Grill, Franz (Austria)	
	Controversies in diagnostics and conservative treatment Speaker: Ömeroglu, Hakan (Turkey)	

Shoulder/elbow, arm/forearm

FREE PAPER	FRACTURES AROUND THE SHOULDER	Room: Hall 7
	Moderators: Tokgozoglu, Mazhar (Turkey), Brunner, Ulrich (Germany)	
	Bulk bone graft augmentation of PHILOS plate fixation of osteoporotic humeral fractures – does it make a difference? Authors: Ved, Abhimanyu / Jain, Kowshick / Singh, Raminder / Robinson, Juan De Dios Speaker: Robinson, Juan De Dios (United Kingdom)	
	Arthroscopically-assisted and image-intensifier controlled stabilization of acute high-grade AC-joint dislocation using a Double-TightRope-technique – results of the second generation implant Authors: Kraus, Natascha / Gerhardt, Christian / Scheibel, Markus Speaker: Kraus, Natascha (Germany)	
	Fractures and non-unions of the proximal humerus with extension into the shaft: Treatment using a long Proximal Humeral Internal Locking System (PHILOS) plate Authors: Goudie, Ewan / Robinson, Christopher / Murray, Iain / Eros, Alex Speaker: Robinson, Christopher (United Kingdom)	
	Treatment of proximal humeral fractures in Tartu University clinics Authors: Põdrägi, Taavi / Pintsaar, Aivar / Tamre, Mari / Rips, Leho / Toom, Alar / Pintsaar, Karl Speaker: Pintsaar, Karl (Estonia)	
	Outcome after fixation of proximal humeral fractures with a locking plate. Functional outcomes at two-years post-injury and medium-terms implant survivorship analysis Authors: Brown, Iain / Nunn, Tom / Ray, Andrew / Robinson, C Michael Speaker: Brown, Iain (United Kingdom)	
	Surgeons agree more on treatment recommendations than on classification of proximal humeral fractures Authors: Brorson, Stig / Olsen, Bo / Frich, Lars Henrik / Jensen, Steen / Sorensen, Anne Kathrine / Krogsaard, Michael / Hróbjartsson, Asbjørn Speaker: Brorson, Stig (Denmark)	
	Incidence of operative treatment for proximal humerus fractures Authors: Mattila, Ville / Huttunen, Tuomas / Kannus, Pekka / Launonen, Antti / Pihlajamäki, Harri Speaker: Mattila, Ville (Finland)	
	Change in surgical methods has resulted in a trend of lower risk for reoperation among proximal humeral fractures operated in the period 1999–2004 compared with 2005–2010 Authors: Månsson, Lukas / Steensland, Erik Speaker: Steensland, Erik (Norway)	
	Proximal humerus nailing: A comparative study between bent and straight nails. Preliminary results Authors: García Coiradas, Javier / García-Fernández, Carlos / Marco Martínez, Fernando / López Morales, Yaiza Speaker: Marco Martínez, Fernando (Spain)	

09:00 – 10:30

Exist for the deltoid split or deltoid pectoral incision benefits for locking plate (NCB-PH) for subcapital humerus fracture?

Authors: Bockmann, Benjamin / Zettl, Ralph / Kühne, Christian / Ruchholtz, Steffen / Mohr, Juliane

Speaker: Mohr, Juliane (Germany)

Isolated greater tuberosity fractures of the proximal humerus. Epidemiology and classification

Authors: Robinson, Christopher / Murray, Iain / Kahn, Lakman / Goudie, Ewan / Goudie, S.

Speaker: Goudie, S. (United Kingdom)

The clinical observation of the scapular fracture and its associated injury

Authors: Wu, Xiaoming / Gao, Wei / Li, Fan / Sang, Weilin / Wang, Qiugen

Speaker: Wu, Xiaoming (China)

Has the arthroscopically assisted 2-bundle reduction advantages over the clavicular hook plate fixation in acute high-grade acromioclavicular joint separations?

Authors: Jensen, Gunnar / Katthagen, Jan Christoph / Voigt, Christine / Lill, Helmut

Speaker: Jensen, Gunnar (Germany)

Closed reduction and arthroscopically-assisted reconstruction of lateral clavicular fractures with coracoclavicular instability

Authors: Gerhardt, Christian / Kraus, Natascha / Stein, Verena / Scheibel, Markus

Speaker: Gerhardt, Christian (Germany)

Titanium Elastic Nails deliver better outcomes in mid shaft clavicular fractures than ORIF or conservative management: A randomised case control study.

Authors: Grammatopoulos, George / Kambouroglou, Gregoris / Jones, Luke

Speaker: Jones, Luke (United Kingdom)

Operative fixation of displaced mid-shaft clavicle fracture: A multi-centre, stratified randomised control trial

Authors: Murray, Iain / Robinson, Christopher / Akhtar, Adeel / Read, Edward / Foster, Caroline / Brooksbank, Andrew /

Arthur, Angus / Packham, Iain / Chesser, Tim / Crowther, Mark / Jenkins, Paul / Goudie, Ewan

Speaker: Goudie, Ewan (United Kingdom)

Combined coraco- and acromioclavicular stabilization with TightRope and gracilis tendon graft for the treatment of chronic vertical and horizontal AC-joint instability

Authors: Kraus, Natascha / Gerhardt, Christian / Scheibel, Markus

Speaker: Kraus, Natascha (Germany)

Arthroscopical refixation of acute single- and multifragmented glenoid fractures

Authors: Hug, Konstantin / Gerhardt, Christian / Scheibel, Markus / Krüger, David

Speaker: Krüger, David (Germany)

Initial immobilisation of Colles' fracture in patients older than 70 years: A radial or dorsal backslab

Authors: Ahmad, Riaz / Butt, Umar / Smith, Lindsay / Spencer, Robert / George, Akintunde / Hussain, Shakir

Speaker: Hussain, Shakir (United Kingdom)

Three-point casting index for predicting the risk of displacement of conservatively-managed fractures of the distal radius: A reliable, reproducible and practical tool?

Authors: Senevirathna, Shanaka / Kakkar, Rahul / Siddiqui, Bobby

Speaker: Siddiqui, Bobby (United Kingdom)

Using a new method to assess the adequacy of fracture reduction in distal radius fractures conservatively treated in plaster casts

Authors: Stevenson, Iain / Medlock, Gareth / Johnstone, Alan / Aziz, Abdul

Speaker: Aziz, Abdul (United Kingdom)

The use of dry arthroscopy in complex distal radius fractures: A prospective study of feasibility

Authors: Mader, Konrad / Beigi, Navid / Mader, Simone / Dargel, Jens

Speaker: Mader, Konrad (Norway)

Soft tissue injuries in distal radius fracture – arthroscopic diagnosis and treatment

Authors: Shih, Juitien

Speaker: Shih, Juitien (Taiwan, China)

Locking plate osteosynthesis for the treatment of distal radius fractures: Aalmar versus dorsal approach

Authors: Machó, David / Schaser, Klaus-Dieter / Haas, Norbert / Tsitsilonis, Serafeim / Wichlas, Florian

Speaker: Tsitsilonis, Serafeim (Germany)

Pronator sparing plate osteosynthesis in distal radius fractures : Early functional outcome

Authors: De Vos, Joris / De Loore, Geert

Speaker: De Vos, Joris (Belgium)

Long term functional results and retention of anatomical reduction of distal radius fractures after treatment with the locking compression plate

Authors: Machó, David / Schaser, Klaus-Dieter / Haas, Norbert / Tsitsilonis, Serafeim / Wichlas, Florian

Speaker: Wichlas, Florian (Germany)

Determinants of grip strength in healthy subjects compared to patients recovering from a distal radius fracture

Authors: Bot, Arjan / Mulders, Marjolein AM / Fostvedt, Sigrid / Ring, David

Speaker: Mulders, Marjolein AM (Netherlands)

SESSION

ANTICOAGULATION AND SURGERY

Room: Hall 10

Moderator: Dahl, Ola (United Kingdom)

Introduction

Speaker: Dahl, Ola (United Kingdom)

Overview of the revised European guidelines of anticoagulation in orthopaedic surgery

Speaker: Warwick, David (United Kingdom)

No bridging in patients on anticoagulant therapy or antiplatelet therapy undergoing orthopaedic surgery? Especially with the NOA

Speaker: Mouret, Patrick (Germany)

09:00 – 10:30

Bridging in patients on anticoagulant therapy or antiplatelet therapy undergoing orthopaedic surgery?
Especially with the NOA

Speaker: Eriksson, Bengt (Sweden)

Pro new oral anticoagulants (NOA)

Speaker: Lassen, Michael-Rud (Denmark)

Contra new oral anticoagulants (NOA)

Speaker: Frostick, Simon (United Kingdom)

OUTCOME AFTER KNEE REPLACEMENT I

Room: Madrid

Moderators: Heller, Karl-Dieter (Germany), Emmeluth, Claus (Denmark)

Validity and clinical utility of a risk calculator for total knee arthroplasty

Authors: Chimento, George / May, Rick / Taylor, Harold / Romine, Lucas

Speaker: Romine, Lucas (United States)

Comparative survivorship and early failure in the learning curve with minimally invasive alignment guides in total knee arthroplasty

Authors: Gomez-Barrena, Enrique / Sanchez, Pilar / Aldomar, Yolanda / Lopez-Oliva, Felipe

Speaker: Gomez-Barrena, Enrique (Spain)

High activity scores after total knee replacement

Authors: Jenny, Jean-Yves / Louis, Pascal / Diesinger, Yann

Speaker: Diesinger, Yann (Germany)

Poor reproducibility of the Knee Society Scores challenges its value for clinical follow-up and comparative studies

Authors: Heyligers, Ide / Senden, Rachel / Grimm, Bernhard

Speaker: Grimm, Bernhard (Netherlands)

Reporting Clinical Outcomes: Proportions can uncover critical information hidden in the mean values

Authors: Heyligers, Ide / Senden, Rachel / Grimm, Bernhard

Speaker: Grimm, Bernhard (Netherlands)

Long-term comparison of fixed- and mobile-bearing total knee arthroplasties in Patients Younger Than 50 Years of Age

Authors: Kim, Young-Hoo / Kim, Jun-Shik / Park, Jang-Won

Speaker: Kim, Young-Hoo (Korea, Republic Of)

10 years results with the mobile bearing Gemini MK2 knee prosthesis

Authors: Thabe, Heiner / Dafferner-Franzmann, Martina

Speaker: Thabe, Heiner (Germany)

09:00 – 10:30

Limitations of patient reported functional outcome following total knee arthroplasty

Authors: Hamilton, David / Gaston, Paul / Simpson, Hamish

Speaker: Hamilton, David (United Kingdom)

A randomized, prospective, controlled study evaluating the effect of patellar eversion on functional outcomes in primary total knee arthroplasty.

Authors: Jenkins, Derek / Rodriguez, Jose / Ranawat, Amar / Alexiades, Michael / Deshmukh, Ajit / Rathod, Parthiv

Speaker: Jenkins, Derek (United States)

ROTATOR CUFF LESION: DIAGNOSTIC & TREATMENT

Room: Hongkong

Moderators: Cartucho, Antonio (Portugal), Thélu, Charles-Edouard (France)

The relation between tendon dimensions and functional results after arthroscopic double-row equivalent rotator cuff repair

Authors: Atalar, Atacan / Seyahi, Aksel / Uçak, Ayla / Demirhan, Mehmet / Koyuncu, Lütfü / Canbulat, Nazan

Speaker: Koyuncu, Lütfü (Turkey)

Biodegradable balloon use in massive rotator cuff tear: Preliminary results of multi-center study

Authors: Maman, Eran / Adar, Eliyahu / Mozes, Gavriel / Rak, Ofer / Dekel, Assaf / Safran, Ori / Beyth, Shaul / Atoun, Ehud / Uri, Ofir

Speaker: Maman, Eran (Turkey)

09:00 – 10:30

Correlation of the involved compartments of massive rotator cuff tear and loss of active shoulder range of motion

Authors: Lädermann, Alexandre / Collin, Philippe / Walch, Gilles

Speaker: Lädermann, Alexandre (Switzerland)

Rotator cuff tears – the correlation between MRI, arthroscopic findings and physical examination

Authors: Eshed, Iris / Herman, Amir / Oran, Ariel / Perry, Moshe / Sela, Yaron

Speaker: Sela, Yaron (Israel)

Arthroscopic repair of bursal– side partial-thickness rotator cuff tears with and without acromioplasty. A prospective, consecutive study in 50 cases

Authors: Guala, Agustin / Bongiovanni, Santiago / Ranalletta, Maximiliano / Lopez Ovenza, Juan / Maignon, Gaston

Speaker: Bongiovanni, Santiago (Argentina)

Recovery from pseudoparalysis after arthroscopic repair of massive rotator cuff tears

Authors: Denard, Patrick / Burkhart, Stephen / Lädermann, Alexandre

Speaker: Lädermann, Alexandre (Switzerland)

A clinical and anatomical randomized study of immediate passive motion versus immobilization after arthroscopic supraspinatus repairs

Authors: Clavert, Philippe / Mielcarek, Paul / Kempf, Jean-François / Arndt, Joseph

Speaker: Arndt, Joseph (France)

Subscapularis function after open and arthroscopic repair of isolated subscapularis tendon tears

Authors: Bartl, Christoph / Salzmann, Gian / Seppel, Gernot / Eichhorn, Stefan / Holzapfel, Konstantin / Imhoff, Andreas

Speaker: Bartl, Christoph (Germany)

Biomechanical evaluation of different SpeedBridge techniques for rotator cuff repair

Authors: Pauly, Stephan / Haas, Norbert / Greiner, Stefan / Scheibel, Markus / Perka, Carsten

Speaker: Pauly, Stephan (Germany)

Volar locking plate versus K-wiring fixation of distal radius fractures in 20–65 year olds

Authors: Brennan, Stephen / Mc Inerney, Niall / Judzan, Mutaz / Kearns, Stephen / O'Sullivan, Michael / Kiernan, Christine

Speaker: Kiernan, Christine (Ireland)

Distal radial fractures. Non bridging external fixation Vs bridging external fixation.

A prospective randomized trial

Authors: Potestio, Domenico / Theodorakis, Emanouil / Laurenti, Filippo

Speaker: Potestio, Domenico (Italy)

11:00 – 12:00

The accuracy of the skyline distal radius view for detecting dorsal cortical penetration during volar distal radius fixation

Authors: Hickey, Benjamin / White, Simon / Riddick, Andrew
Speaker: Hickey, Benjamin (United Kingdom)

A novel approach to wrist reduction – a cross trust analysis of a reduction aid and single person technique and the potential health economics

Authors: Ricks, Matthew / Ellahee, Najab / Hendry, Jimmy / Mohan, Arvind
Speaker: Ricks, Matthew (United Kingdom)

Is it really necessary to combine a volar LCP plate and bone grafting in the treatment of complex distal radius fractures?

Authors: Alfonso Fernandez, Ana / Sánchez Crespo, Manuel / del Canto Álvarez, Fernando / Peñas Díaz, Francisco Jesús / Garcés Zarzalejo, Carlos / De Diego Gutiérrez, Victor
Speaker: Alfonso Fernandez, Ana (Spain)

Volar versus dorsal polyaxial locking plates for the fixation of AO type C 2.1 distal radius fractures: A biomechanical study in cadavers

Authors: Klos, Kajetan / Rausch, Sascha / Schlonski, Olav / Wagner, Andreas / Gueorguiev, Boyko / Hofmann, Gunther / Mückley, Thomas

TIME FOR ACTION

DECADE OF ACTION FOR ROAD SAFETY 2011-2020

Symposium

Injury Prevention

Wednesday 23 May

Time: 14.15 - 15.45

Auditorium: Stockholm

Check the programme for more sessions on trauma topics.

Exhibition

The WHO presents statistics and the concept of the Decade.

What happens after a car crash?

A car has been damaged in a crash test scenario and is exhibited in Hall 15. Learn all about the biomechanical background.

Live Car Crash

Friday 25 May

Time: 10.45

Courtyard of the ICC

Experience this spectacular demonstration:

A live stunt show lets you observe the impact of a car crashing into a parked car at high speed.

EFORT 2012 supports the Decade of Action for Road Safety, launched by the United Nations.

EFORT was established by the national associations for orthopaedics and traumatology of 20 European countries. The federation was founded in Marentino, Italy, in 1991, and now has over 40 national member societies from more than 35 member countries, as well as four associate scientific members. EFORT is established as a non-profit organisation, and all funds are used exclusively in the pursuit of the federation's aim.

"EFORT works on behalf of the European orthopaedic and traumatology community to restore and secure mobility, musculoskeletal health and quality of life."

EFORT will achieve its mission and vision through becoming a reference point in musculo-skeletal diseases and injuries and through raising awareness at the EU and global level and across European patient organizations.

To fulfil its objectives, EFORT organises an annual congress, a comprehensive advanced training programme (the ATP), and is present at major European conferences. It also issues a series of scientific publications, including the "European Orthopaedics and Traumatology" (EOTR) journal, book series and IL (Instructional Lecture) books.

With its annual congress, EFORT offers an international stage for the latest developments in the field of musculoskeletal disease and trauma, and constitutes a unique platform for surgeons, physicians and allied healthcare professionals to absorb and track the latest scientific findings. Following last year's success and as a partner of the European Year for Active Ageing and Solidarity between Generations 2012, we will feature again an EU political symposium entitled "Europe on the move – promoting active and healthy ageing". Furthermore a session on "Injury Prevention" will underline the importance of the initiative Decade of Action for Road Safety 2011-2020.

The ATP is a series of specialised courses taking place throughout the year. Its objective is to improve and harmonise training standards with its member organisations and specialty societies. Newly introduced, the "BAT Educational Programme" is complementing the range of EFORT's educational programme. The acronym BAT stands for **B**asic Courses, **A**dvanced Courses and **T**raumatology Courses, implying that the curriculum is comprised of a module of two basic courses in combination with one on traumatology. The aim of this programme is to foster a problem-solving approach in the diagnosis and management of musculo-skeletal conditions. Check out the next course coming to your region in the online event calendar.

"European Orthopaedics and Traumatology" (EOTR) is EFORT's official journal, and offers a forum for discussion among surgeons and those who work with them, as well as patient organisations. Meanwhile, our book series and IL books ensure comprehensive and dynamic coverage of topical issues throughout the year. Articles published here reflect the broad spectrum of European opinion on daily practice in orthopaedics, and help to promote consensus and accepted standards across the discipline.

Whether via the EFORT Fora, a specialist congress session from one of our national member associations, or one of our fellowship programmes – which are becoming increasingly popular – EFORT strives to enhance and unify orthopaedic and ongoing medical training as well as knowledge transfer.

The "EFORT Forum" project, which is an EFORT symposium at a national congress, began in 2002 at the DGOOC congress in Berlin. The initial idea was to choose one topic for several events, e.g. thromboprophylaxis, and have European experts discuss it with speakers from various countries to clarify different European criteria and arrive at new standards. The idea was very well received, but the problem was to find European speakers ready to deal with the same topic in up to ten different events. Furthermore, we realised that the expectations of such a symposium differ widely between countries.

We have therefore changed our format, and have decided instead to organise up to ten European Fora each year with four to six speakers. We plan to provide updates on a variety of hot topics in our speciality. National societies are free to choose a topic and propose a two-to-four-hour session during the annual congress, preferably on the official opening day or the day after. EFORT Fora should not clash with the main sessions of the congress. At least half of the speakers should come from national societies, and the others from other European countries. For this reason, the Forum language will be English. Whether or not simultaneous translation is needed must be decided by the congress organisers. In recent years, the EFORT Fora have achieved a very high scientific level and provided an excellent platform for exchange between national societies and EFORT. The speakers involved in these Fora were always hosted very graciously, and treated as honoured guests at the congress. Accordingly, the interest in such Fora has growing markedly, and we are delighted to announce seven EFORT Fora at European national congresses in 2012:

1. EFORT FORUM during the KSOTS Congress in Pristina, Kosovo, 11 – 12 May 2012
Topic: Hip arthroplasty
2. EFORT FORUM during the PTOiTR Congress in Rzeszow, Poland, 19 – 22 September 2012
Topic: New techniques and developments in orthopaedics and trauma surgery
3. EFORT FORUM during the HAOST Congress in Athens, Greece, 3 – 6 October 2012
Topic: Management of the osteoarthritic knee in the young patient
4. EFORT Forum during the SPOT Congress in Albufeira, Portugal, 17 – 19 October 2012
Topic: Degenerative knee. The challenge with the young and active patient
5. EFORT FORUM during the PanCyprian Orthopaedic Conference in Cyprus, 26 – 28 October 2012
Topic: First ray pathology (H.V. hallux valgus)
6. EFORT Forum during the SIOT Congress in Rome, Italy, 10 – 14 November 2012
Topic: Complex proximal humeral fractures
7. EFORT Forum during the SOFCOT Congress in Paris, France, 12 – 15 November 2012
Topic: Overuse syndrome

We invite all EFORT national member societies to organise such Fora in the future.

About Berlin

Berlin fascinates visitors with its contrasts and contradictions. It was the capital of Germany until 1945. After World War II, it became a city divided politically and by the famous Berlin Wall. When the border between East and West Berlin was opened on 9 November 1989, it marked the beginning of the end of the division of a nation which has existed since 1945. With the proclamation of the State Treaty between the two German states in October 1990, Berlin once again became a united city, and shortly after again capital of Germany.

Berlin's inhabitants represent many nationalities, languages and cultures and give Berlin its cosmopolitan flair. East Berlin, once the capital of East Germany, is a fascinating mixture of historical Berlin and former socialist city, which is rapidly developing a new face. West Berlin, long famous for its diverse cultural and political life, has retained its brash, lively character.

Berlin is the city of muses, artists and museums and its culture is as multi-faceted as the city itself. It is varied, exciting and always original. Berlin is at the cutting edge of music, art and lifestyle trends. At the same time outstanding museums, orchestras and theatres continue to cultivate the city's great traditions. There are over 170 museums packed with the world's art treasures and fascinating historical exhibitions spanning the centuries. There are museums appealing to every taste and interest including the renowned National Gallery, the Egyptian Museum (with the famous bust of Queen Nefertiti), the Bauhaus Museum, the Pergamon Museum and the exquisite porcelain collection at Palace Charlottenburg, to name just a few.

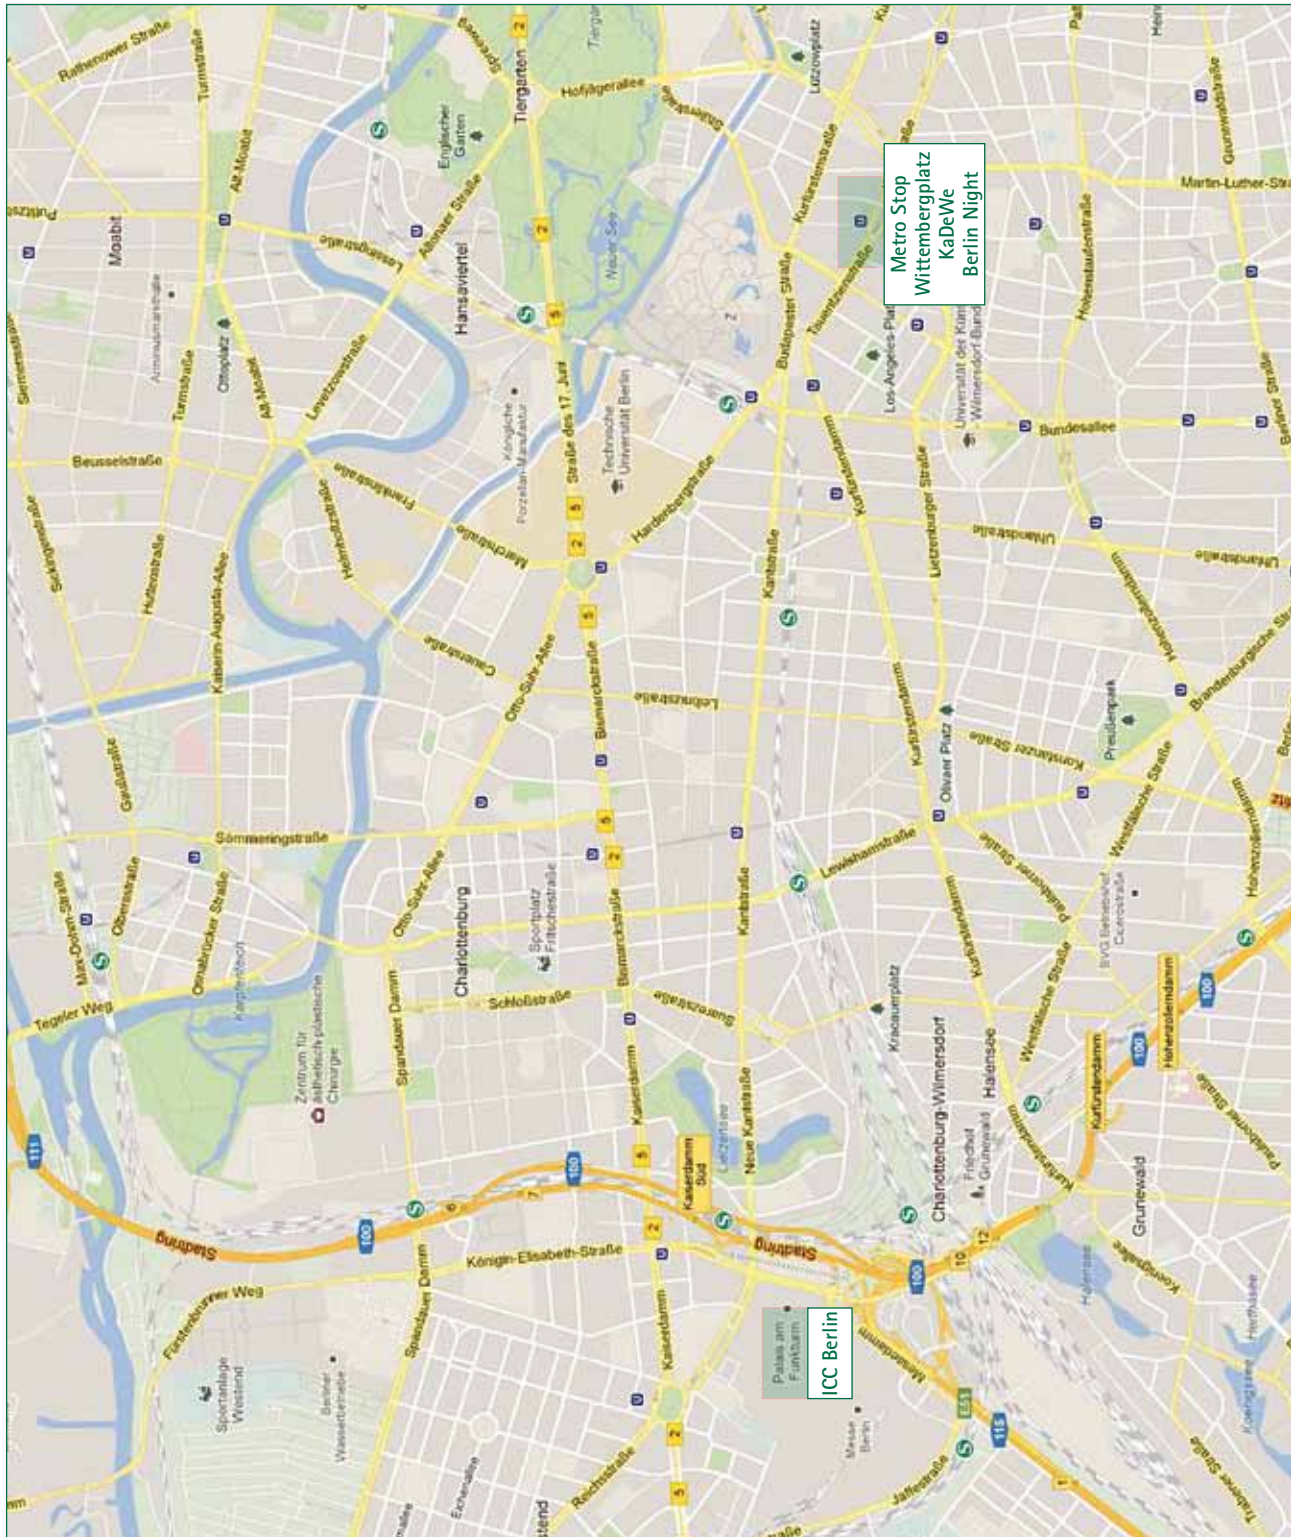

Furthermore, Berlin is also home to an amazingly inventive pool of more than 6000 artists, who are busily creating dynamic young art for tomorrow's collections.

Visitors can wander about the museum village of the earliest Berlin settlement, through the lovely villa district of Dahlem, or promenade and shop in the elegant shops along the famous Kurfürstendamm and Unter den Linden. They can enjoy the colourful multicultural scene in Kreuzberg or Prenzlauer Berg, or discover the rustic village character of the outer districts.

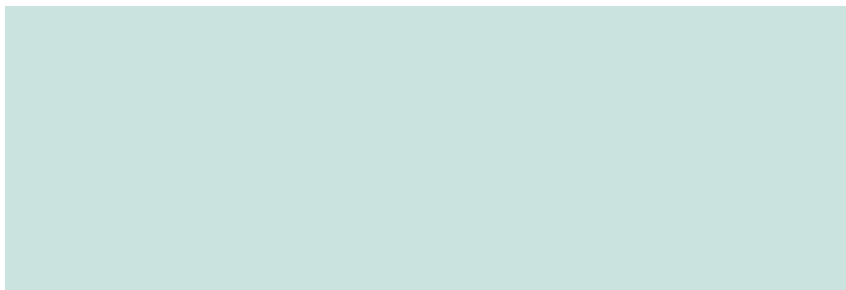

Discover Berlin as the Mepotropolis between East and West, two cities becoming one!

General Congress Information

Abstracts	The abstract CD Rom is included in your congress bag and contains all the abstracts which have been accepted by the programme committee.
Badges	All delegates and accompanying persons will receive a name badge at the registration desk in the foyer of the ICC Berlin. This badge is the official conference ID and should be worn at all times in order to gain entry to the meeting rooms and exhibition halls. A delegate's badge grants entry to the various elements of the scientific programme. Admission to the Congress will not be allowed without badge identification. Vouchers for courses and workshops that have been booked in advance will be handed out with the registration materials. Every delegate is asked to check when they receive their congress materials that all vouchers for services booked are present. Later objections will not be accepted. These vouchers allow the delegate to attend courses and workshops that have been booked and paid for in addition to the registration fee. Only delegates who have registered for the Congress or paid for a day ticket may participate in courses or workshops. Please note that lost or forgotten vouchers will not be refunded. A day pass will be issued for EUR 20 if a badge is forgotten. Lost badges will be reissued for a handling and production fee of EUR 30. Your badge will feature a barcode containing your full address and e-mail. It is your decision whether or not you wish to disclose these details to exhibitors via a barcode scanner.
Bank services	Banks are open from 10.00 am to 4.00 pm, Monday to Friday. At Tegel airport you will find an international currency exchange which is open from 5.00 am to 9.30 pm seven days a week. ATM machines and services are generally provided outside of banks and accept all international credit cards, Maestro, Cirrus and Bancomat cards. An ATM is also available at the information desk in the foyer of the ICC.
Certificate of attendance	All registered attendees, whether they register in advance or on site, will receive a certificate of attendance issued on site.
Certificate of European CME credits	The certificate of European CME credits will be available to registered participants online after the Congress. Full attendance at the Congress entitles a delegate to 18 European CME credits (ECMECs).
Cloakroom and storage	A cloakroom and luggage deposit located at the main entrance will be available during the official Congress time schedule. The congress centre and the organisers are not responsible for any items lost or left behind.
Congress app	 Download the congress programme to your mobile device (iPhone®, iPad® or Android). You will be able to view the day-by-day programme, select sessions, and create your own timetable. Just download the "EFORT 2012" app from the App Store or Andoid App Market.

General Congress Information

Congress registration	Registration is only valid if the conference fee and charges for other services have been paid in full. Registration on site is possible during the entire Congress during registration desk opening hours. Only credit cards and cash payment will be accepted for on-site registrations. Valid proof of status must be presented on site when registering at lower rates.	
Congress language	The official Congress language is English. Please note that no simultaneous translation will be provided.	
Currency	The local currency is the Euro (EUR).	
Disabled persons	The congress centre is easily accessible to disabled persons. Kindly address any request for special assistance to the Congress secretariat: MCI Schweiz AG, EFORTinfo@mci-group.com .	
Electricity	In Germany, electricity is supplied at 220V, 50Hz. Adapters will be needed for some devices from other countries.	
First aid	In case of emergency, please contact the general information desk next to the main entrance, or call (+49) 112.	
Food and refreshments	Lunch and refreshments are not included in the registration fee. You can buy lunch and refreshments in several catering areas within the congress centre.	
Industry exhibition	The industry exhibition is open to pharmaceutical companies, manufacturers of medical and surgical equipment and software, and scientific publishers. The industry exhibition is located at the ICC and will be open from 23 May to 25 May 2012 in accordance with the session timetable.	
Industry exhibition opening hours	Wednesday, 23 May	from 09.00 to 17.30
	Thursday, 24 May	from 08.00 to 17.30
	Friday, 25 May	from 08.00 to 17.30
Insurance	The organisers are not responsible for individual medical, travel or personal insurance. Participants and accompanying persons should arrange their own cover.	
Internet connections	Workstations with an internet connection will be available during the Congress opening hours. Participants are kindly requested to limit internet usage to five minutes to allow as many participants as possible to use this service.	
Liability disclaimer	The organisers cannot be held liable for any hindrance or disruption of Congress proceedings arising from political, social or economic events or any other unforeseen incidents beyond their control. The organisers will accept no liability for any personal injuries sustained or for loss of or damage to property belonging to Congress participants, either during or as a result of the Congress or during all tours and events. By registering, participants agree to be bound by these conditions.	
Lost and found	For lost and found items, please refer to the cloakroom on site.	

Media check/speaker preview	All session rooms are equipped with computer projection. Speakers are asked to hand in their presentations for a media check (ICC Lounge, main foyer) at least three hours before their speech. Speakers giving a presentation during the first time slot in the morning are asked to hand in their slides the day before.	
Media check opening hours:	Tuesday, 22 May	from 14.00 to 18.00
	Wednesday, 23 May	from 07.00 to 18.00
	Thursday, 24 May	from 07.00 to 18.00
	Friday, 25 May	from 07.00 to 18.00
Message board	There will be a message board close to the registration desk where delegates can leave messages.	
Mobile phones	Mobile phones are strictly prohibited during all scientific sessions.	
No-smoking policy	Smoking is strictly prohibited during all meetings and sessions, and in exhibition halls, at all times.	
Posters	Scientific e-posters will be displayed in hall 12. Those selected as the best posters (preinformed) may also be presented on poster walls in hall 12. The size of your poster should not exceed A0 oversize (88.2 cm width, 124.7 cm height). Posters may be set up on Wednesday, 23 May from 09.00 to 12.00 Posters should be removed on Friday, 25 May between 15.00 and 18.00 (latest). Posters not removed at this time will be discarded.	

There are direct motorway links to the ICC from Berlin's international airports. A total of 12 000 parking spaces are available at and the around the venue. Taxi ranks, underground and light rail stations and bus stops can all be found close to the main entrance of the EFORT congress venue.

PUBLIC TRANSPORT

Within Berlin, Verkehrsverbund Berlin-Brandenburg (VBB) fares apply. The Berlin public transport system is efficient, and the combination of buses, trams, the U-Bahn (underground) and S-Bahn (commuter rail) reaches every part of the sprawling city and its surroundings. The U-Bahn and S-Bahn are the best ways of getting around. Buses cover the parts of the city that cannot be reached by train, and East Berlin has a network of modernised tram lines of pre-war origins. With a VBB ticket, you can use all the means of transport offered by the various transport companies in Berlin and Brandenburg. The main stop for the Congress is "Messe Nord/ICC". This stop is on the East-West connection through the city centre, passing the main stations of Zoologischer Garten, Potsdamer Platz, and Alexanderplatz.

	U-Bahn/S-Bahn/Bus line number	Stop/Station
	2	Kaiserdamm
	5	Messe Süd
	41, 42, 46	Messe Nord
	5, 7, 41, 42, 45, 46, 47, 75	Westkreuz
	M49, X34, X49, 104, 139, 349	Messedamm/ZOB/ICC

BY CAR

Environmental Zone

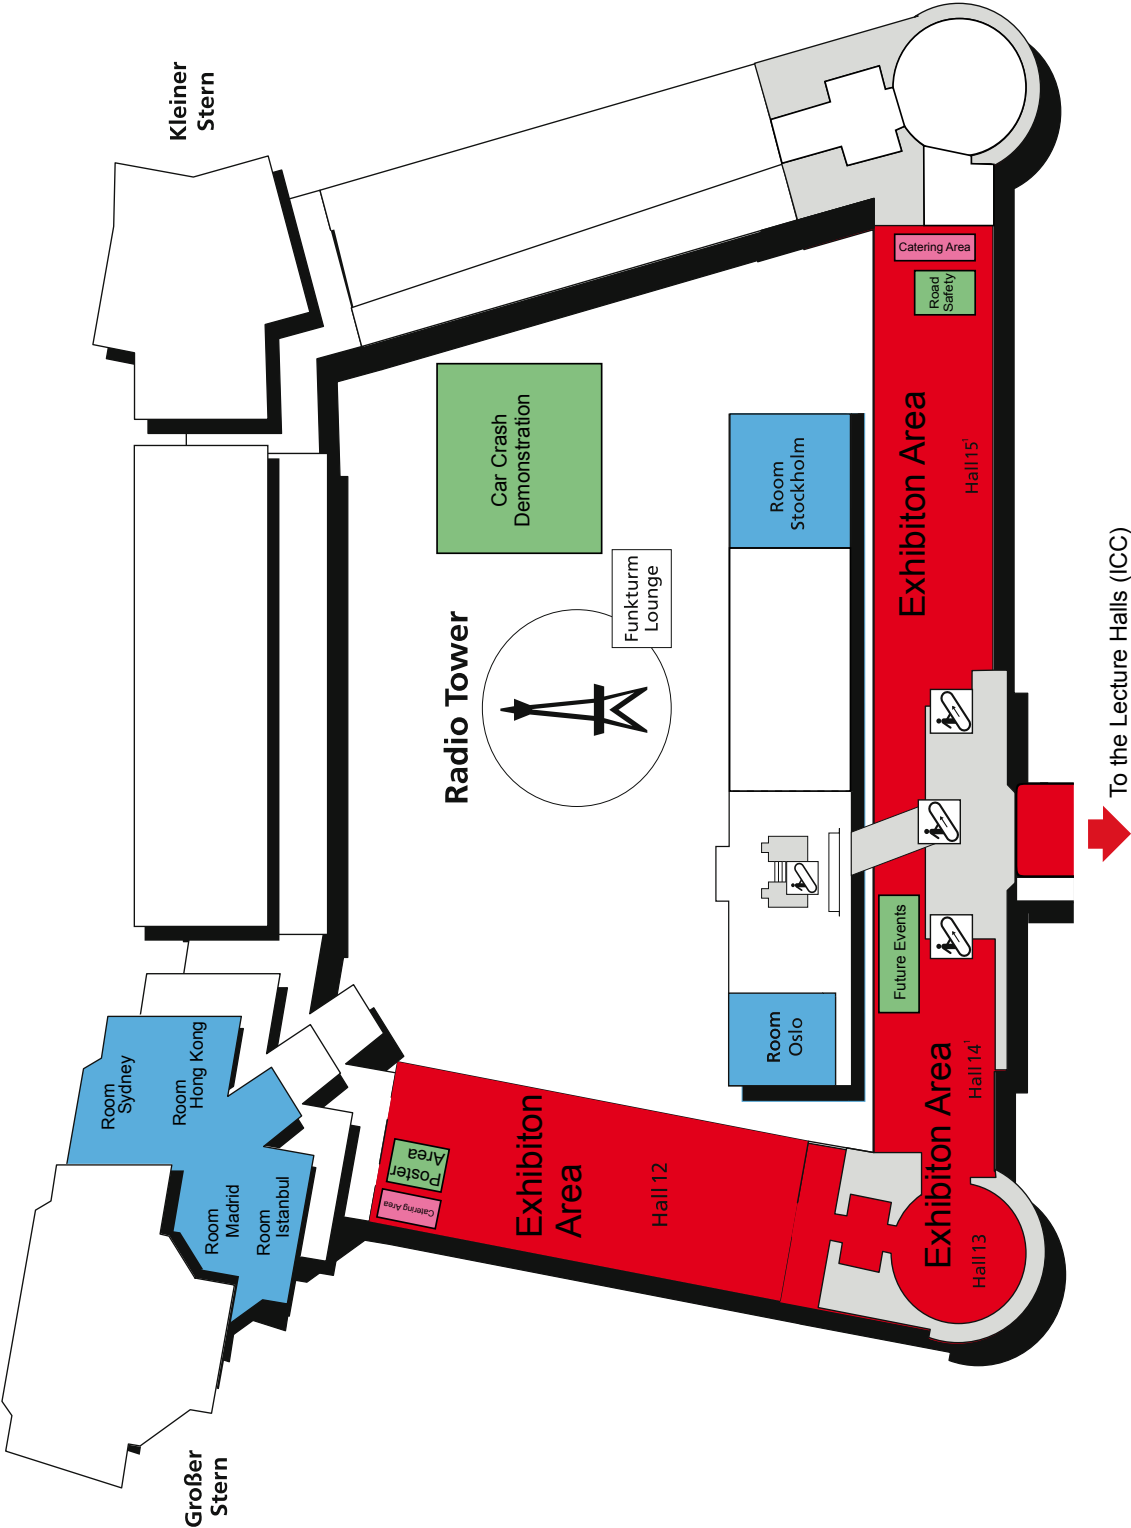

Please note that the Environmental Zone came into force in Berlin on 1 January 2008. Vehicles may only enter this area if they display a valid sticker showing that their emissions do not exceed a specified level of fine particulates. Signs have been erected on the roads clearly showing where the Environmental Zone begins. The exhibition grounds and ICC are located outside the Environmental Zone. Visitors arriving by car via the motorway system and entering the exhibition grounds directly via the interchange marked "Messegelände/Messedamm" are outside the zone and therefore do not require a sticker.

More information:

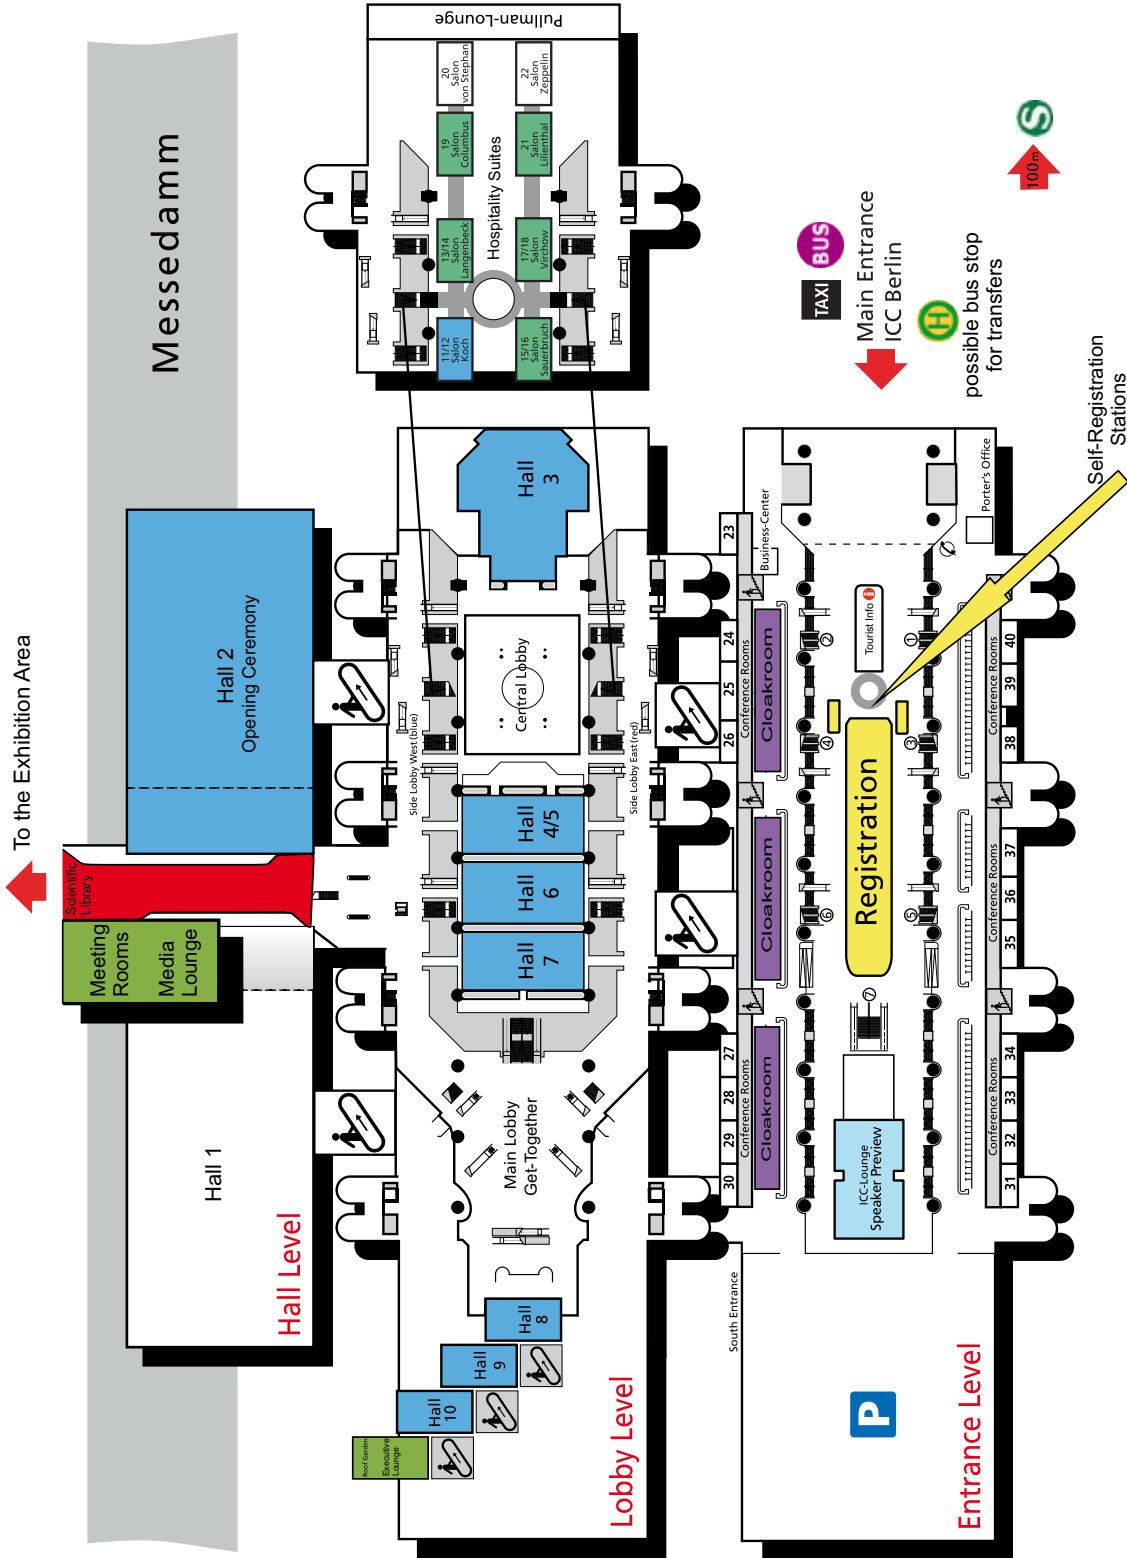

www.berlin.de/sen/umwelt/luftqualitaet/de/luftreinhalteplan/umweltzone_aktuelles.shtml

The *Autobahn* motorway network radiates from the German capital like a star, and most of these motorways can now carry six lanes of fast-moving traffic. Once you are on the A10 (Berliner Ring), look for the signs to "Messegelände" at the "Nuthetal", "Oranienburg", "Schönefelder Kreuz" and "Pankow" junctions. These will lead you directly to the A100, A111 and A115 (Avus) motorway and the "Funkturn" junction, where you turn off at the "Messegelände" exit. 5 000 parking spaces are situated in the direct vicinity of the exhibition grounds/ICC.

YOU'VE ONLY JUST ARRIVED & ALREADY WE'RE THINKING OF YOUR NEXT TRIP

As the official airline network for the 13th EFORT Congress 2012, we'd like to thank you for choosing the Star Alliance™ network and hope that all goes really well for you here today.

Whilst you concentrate on the day's events, we hope you'll consider us the next time you need to attend a conference.

With over 21,000 flights a day to 1,290 airports across 189 countries, our 27 member airlines will extend a wide choice of flights to any future conference you're planning to attend. And no matter which of those airlines' frequent flyer programmes you belong to, you can earn and redeem miles across all of them.

So the next time you want to concentrate all your energies on your conference, we hope you'll decide to leave the travel arrangements to us.
