# INFECTION

During the 16<sup>th</sup> EFORT Congress Prague: 27-29 May 2015

 #EFORT2015

## Highlights

- The Ongoing Challenge Of Infection In Orthopaedics And Trauma
- Out Of The Ruins - Salvage Of 'Hopeless' Orthopaedic Infections
- The Septic Arthritis
- Infection After Osteosynthesis
- Coating of Implants to Prevent Infections

## DO ORTHOPAEDIC SURGEONS WHO HAVE NEVER FACED AN INFECTION EXIST?

---

In a bionic society the use of orthopaedic implants has become common practice and millions of patients have had their life changed with the help of these extremely successful procedures.

The result of our surgery can nevertheless be overshadowed by infection occurring in approximately 3–4 % of TJA and even more often after fracture fixation.

Infection will lead very likely to lots of suffering of the patient and can be extremely difficult and expensive to treat. Awareness of the infection problem, knowledge on how to prevent it and the use of up to date diagnostics and treatment algorithms is paramount.

The goal of the EFORT meeting is to improve our overall performance in the prevention and treatment of this dreaded complication and thus lessen the burden of infection on our patients, or hospitals, our health system and last but not least on ourselves.

*PD MER Dr Olivier Borens*

*Chief Orthopaedic Trauma Unit and Orthopaedic Infection Unit*

*CHUV, Lausanne, Switzerland*

## DAY 1 WEDNESDAY – 27 MAY 2015

---

### Sessions

#### 09:00–10:30

---

Room: Vienna  
Type: Symposium  
Session: Nosocomial Antibiotic Resistant Agents For Infection

#### 15:00–16:00

---

Room: Vienna  
Type: Instructional Lecture  
Session: Diagnostics In PJI

#### 16:15–17:15

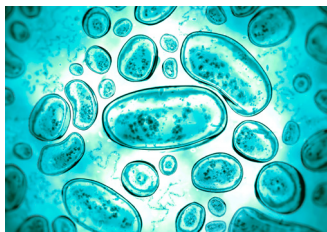

---

Room: Prague  
Type: Instructional Lecture  
Session: Microbiology, Biofilm And Antibiotics

#### 16:15–17:15

---

Room: Vienna  
Type: Instructional Lecture  
Session: Treatment Of PJI

DAY 1 WEDNESDAY – 27 MAY 2015

---

### Highlight symposium

17:30–18:30

---

Room: Prague

Type: Symposium

Session: The Ongoing Challenge Of Infection In Orthopaedics And Trauma

Moderator: Cannon, Stephen R. (United Kingdom)

---

Key Components In The Prevention Of Healthcare-Associated Infections

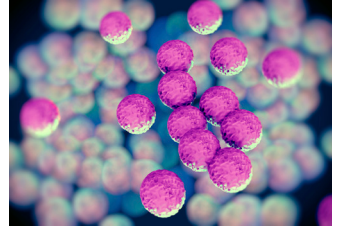

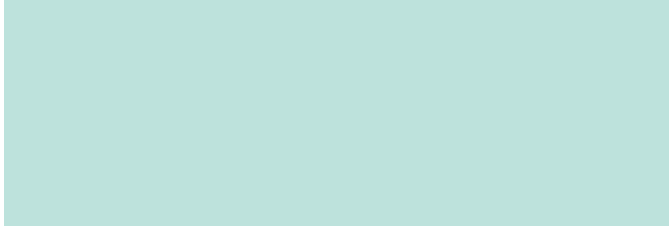

*Speaker: Zingg, Walter (Switzerland)*

The Development Of Antibacterial Alloy Implant Surfaces

*Speaker: Blunn, Gordon (United Kingdom)*

Changing Paradigms In Diagnosis And Treatment Of Orthopaedic Infections

*Speaker: Winkler, Heinz (Austria)*

DAY 2 THURSDAY – 28 MAY 2015

## Speciality session

European Bone and Joint Infection Society (EBJIS)

This is the main theme session of the EBJIS. The aim of the Society is to promote the knowledge of all infections affecting the Musculoskeletal system (bone and joint infections), and to promote the prevention and treatment of these infections.

08:00–12:15

Room: Madrid  
Topic: Orthopaedics/ Musculoskeletal Infections  
Session: Out Of The Ruins – Salvage Of 'Hopeless' Orthopaedic Infections  
Moderators: Winkler, Heinz (Austria) & Kirketerp-Møller, Klaus (Denmark)

## Panel Discussion Around Infection Cases From Faculty

Major Diaphyseal Defect  
*Speaker: Lob, Günter (Germany)*

Arthrodesis After Failed TKR With Major Bone Loss  
*Speaker: Tiemann, Andreas (Germany)*

Hopeless Case Of Infected Humerus Non-Union  
*Speaker: Borens, Olivier (Switzerland)*

Mixed Infection With Multidrug-Resistant Gramnegatives (MDR-ESBL) And Methicillin Resistant Grampositives (MRSA)  
*Speaker: Winkler, Heinz (Austria)*

The Hopeless Hip  
*Speaker: Romanò, Carlo Luca (Italy)*

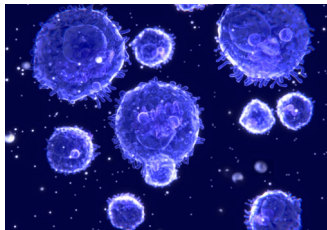

Infected Megaprosthesis With Massive Allograft  
*Speaker: Giordano, Gérard (France)*

The Hopeless Diabetic Foot  
*Speaker: Kirketerp-Møller, Klaus (Denmark)*

## Panel Discussion Around Infection Cases From Participants

Selected Presenters From The Audience

Congress participants wishing to present their own "hopeless" Infection Case are invited to bring it on a USB stick to the Faculty/ VIP desk before Wednesday 27 May 18:00 CET.

## DAY 2 THURSDAY – 28 MAY 2015

---

### Sessions

#### 08:00–09:30

---

Type: Symposium  
Room: Istanbul  
Session: Osteoarticular Tuberculosis

#### 15:00–16:30

---

Type: Symposium  
Room: Madrid  
Session: The Septic Arthritis

#### 15:00–18:30

---

Type: Interactive Expert Exchange  
Room: Paris  
Session: Infection After Osteosynthesis

#### 17:00–18:30

---

Type: Complex Case Discussion  
Room: Madrid  
Session: Infection After Hemiarthroplasty

## DAY 3 FRIDAY – 29 MAY 2015

---

### Sessions

#### 08:00–09:30

---

Type: Symposium  
Room: Munich  
Session: Management Of Long Bone Infections

#### 08:00–12:15

---

Type: Interactive Expert Exchange  
Room: Paris  
Session: Patient Adapted Treatment After Prosthetic Joint Infection

#### 15:00–16:30

---

Type: Symposium  
Room: Munich  
Session: Coating Of Implants To Prevent Infections

#### 17:00–18:30

---

Type: Complex Case Discussion  
Room: Munich  
Session: Infection And Periprosthetic Fracture

SAVE THE DATE

## Forthcoming EFORT Congress

Geneva | 01-03 June 2016  
Theme: Maintaining Activity  
Through Life
