

A joint collaboration between European Federation of National Associations of Orthopaedics and Traumatology (EFORT) and the European Society for Surgery of the Shoulder and Elbow (SECEC).

This 'Focus Proximal Humeral Fractures' Webinar will centre on classification, indication and techniques and its objectives are:

- demonstrating that PHF are treated very differently depending where you live
- showing how classification and new technology help the surgeon to analyse PHF and help decision making for treatment
- discussing indication for conservative, joint preserving and joint replacement treatment options based on case presentation including discussion of the actual literature
- presenting special aspects in children and adolescents

This Webinar is organised by EFORT in collaboration with SECEC independent of any commercial educational support and hosted by M-Events.

Webinar information and registration page: <http://efortnet.conference2web.com/webinars>
