Reviewing panel – The Lancet, British Medical Journal, Journal of Shoulder and Elbow Surgery, Journal of Hand Surgery, Injury, Journal of Clinical Anatomy  
Book – 'The Evidence for Orthopaedic Surgery' pub. 2006  
18 Book Chapters

### Research

I have been involved in research programmes in spinal injury and in the anatomy and biomechanics of normal and pathological shoulder joints. I have published in the fields of upper limb surgery, spinal fractures, trauma, joint replacement and sports injuries. I am involved in Research Governance and Grant reviewing for National Bodies. I currently chair the Data Monitoring Committee for a 1.5million euro+ NIHR funded national multicentre study I shoulder fracture surgery (Proffer2)

### Education

I am past Chairman of the Education Board of the British Orthopaedic Association with lead responsibility for Continuing Professional Development and Revalidation.  
I was Programme Director / Head of Training for the Yorkshire Regional Training Scheme in Orthopaedic Surgery 2000 to 2005 then a member of the Specialist Advisory Committee in Orthopaedics for the Joint Committee on Surgical Training to 2011.  
I was an examiner for the Intercollegiate Board in Orthopaedic Surgery 2004 – 2014 and assessor of examiners 2015-2018. I chaired the Section 1 question writing committee, Exam Quality Assessment Committee and Standard Setting Groups form 2010-2019. I now examine and assess examiners for the International (JSCFE) Trauma and Orthopaedics Board examination.

### Clinical Interests

I am a Consultant in a Teaching Hospital and deal with shoulder and elbow trauma. I operate a secondary and tertiary referral practice for complex shoulder and elbow injuries, My elective practice specialises in Shoulder and Elbow Surgery.
