Learning objectives:

Flatfoot in children is extremely common, and most patients do not need specific orthopaedic care. However, some patients will need treatment, and this EFORT Webinar will provide the best and updated knowledge on diagnosis and treatment for flatfoot in children. It shall focus on:

- how to diagnose the different types of flatfoot
- and how to treat the conditions

This Webinar is organised by EFORT independent of any commercial educational support, and hosted by M-Events.
