Learning Objectives:

This EFORT Webinar will focus on the latest advances made in the diagnosis and treatment of periprosthetic fractures of the femur (hip). Diagnosis, classification and treatment will be addressed. The objectives of this Webinar are:

- Understanding the issues and challenges that need to be addressed for the appropriate diagnosis, classification and indications
- Selection of the surgical approach
- Tips and tricks of the surgical technique
- Case-based discussion of decision-making

This Webinar is organised by EFORT independent of any commercial educational support and hosted by M-Events.
