Aims & Objectives:

- To better understand the needs and challenges of the medical community and in particular orthopaedic and traumatology surgeons.
- Learn about daily medical care in hospitals/in the field and how to treat war injuries
- Daily medical care, ongoing treatments, planning & delays of elective surgeries
- Impact of population movements
- Needs of Orthopaedic Education for Ukrainian surgeons now and in the future
- Identifying areas and developing practical initiatives in order to assist the members of the National Society of Ukraine

This EFORT Webinar is organised by EFORT and independent of any commercial educational support. It will be broadcast live in English. All times indicated are CET. A replay will be available a few days after the live webinar.
